SECTION II. INTRODUCTION

Method of Instruction: <u>Conference / Discussion</u>
Technique of Delivery: <u>Small Group Instruction (SGI)</u>
Instructor to Student Ratio is: <u>1:14</u>
Time of Instruction: <u>5 mins</u>
Media: <u>None</u>

Camera: Main camera on the instructor. Ask each Site Coordinator at the Distance Learning sites if they are prepared for training.

Motivator The First Sergeant must understand that it is impossible for soldiers to maintain proficiency in every task. The METL development process narrows training requirements to attainable numbers. Primary focus on the unit's wartime mission allows the commander and subordinate leaders to conduct training on those essential tasks that directly support the wartime mission.

Terminal Learning Objective

NOTE: Inform the students of the following Terminal Learning Objective requirements.
At the completion of this lesson, you [the student] will:

Action:	Analyze the Mission Essential Task List (METL) development process.
Conditions:	As a first sergeant in a classroom environment given ARTEP 7-5-MTP, FM 7-0, and FM 7-1.
Standards:	Analyzed the Mission Essential Task List development process IAW ARTEP 7-5-MTP, FM 7-0, and FM. 7-1.

Evaluation

At the end of this module you will receive a written, objective examination. It will test your learning of the objectives from this and other lessons. You must correctly answer at least 70 percent of the questions (28 out of 40) to receive a GO.

**Instructional
Lead-In**

In this lesson you will examine the Mission Essential Task List (METL) development process. This lesson allows you to assist your commander and subordinate leaders to prioritize training. Chapter 3 of FM 7-1 addresses the process that unit commanders must use to develop the METL.

NOTE: Inform students to take note of the METL definition FM 7-1, page Glossary-18. Require students to recall the definition throughout this block of instruction. Divide the class into three groups (for VTT each site is one group). Assign the practical exercise (PE) to each group:

- Group 1, ELO A, METL development process, FM 7-1, pp 3-1 to 3-13.
- Group 2, ELO B, Collective/Leader/Individual task relationships, ARTEP 7-5-MTP, p 2-1, para 2-1 and 2-2, Figure 2-1, pp 2-2 to 2-10, Figure 2-2, and pp 2-130 to 2-130 to 2-163, Figure 2-4, FM 7-0, p 3-7, para 3-20 - 3-21 and Fig 3-6 and FM 7-1 p 3-21, para 3-49 - 3-50 and Fig 3-21.
- Group 3, ELO C, Training objective development process, ARTEP 7-5-MTP, pp 5-3 to 5-4, Figure 5-1, FM 7-1 p 3-29, para 3-70 to 3-73, p 3-30, para 3-74 to 3-76, and p 3-32, fig 3-32.

NOTE: Allow the groups 15 minutes now to review/research their assignment. Allow each group 15 minutes to brief their topic. During their topic briefing, students will not read from the reference but paraphrase (use their own words) and integrate their experience. Ensure students cover the topic key elements (bullets) and information located in the questions. Ask the questions not covered at the end of each group briefing.

SECTION III. PRESENTATION

NOTE: Inform the students of the Enabling Learning Objective requirements.

A. ENABLING LEARNING OBJECTIVE

ACTION:	Explain the development process of the unit METL.
CONDITIONS:	As a first sergeant in a classroom given FM 7-1.
STANDARDS:	Explained the development process of the unit METL IAW FM 7-1.

1. Learning Step / Activity 1. The METL Development Process

Method of Instruction: Conference / Discussion
Technique of Delivery: Small Group Instruction (SGI)
Instructor to Student Ratio: 1:14
Time of Instruction: 15 mins
Media: None

The METL development process links the unit's wartime operational mission with its training. Battle focused training programs are based on wartime operational requirements.

NOTE: Divide class into three groups (personnel at VTT site are considered one group). Each group is assigned a practical exercise and each group is given 15 minutes to review/research their topic. Upon completion of the 15 minutes, each group will select a group leader who will explain to the rest of the class the topic assigned. Group leader can select help from his/her group with the understanding that group will not read from the reference but paraphrase in his/her own words (integrated experience). Ensure that each group covers the topic key elements (bullets) and information located in the questions.

2. Learning Step / Activity 2. Discuss the METL Development Process

Method of Instruction: Conference / Discussion
Technique of Delivery: Small Group Instruction (SGI)
Instructor to Student Ratio: 1:14
Time of Instruction: 15 mins
Media: VGT-1 thru VGT-5

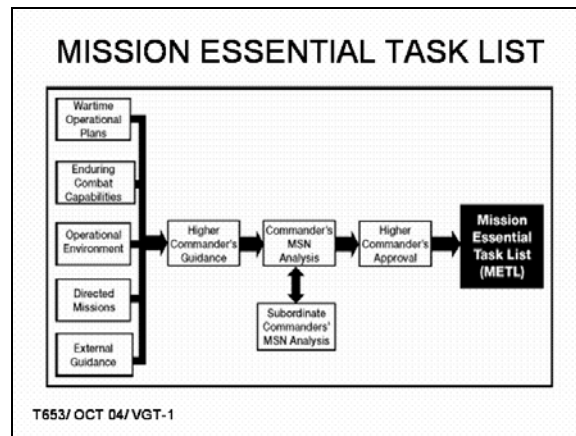

NOTE: Group 1 will--

Conduct an after action review of this lesson. You can practice using the format you just discussed. Focus on what went right, what went wrong, and what needs improvement.

Review / Summarize Lesson

During the last two hours, we discussed chapter 3 of FM 7-1, Mission Essential Task List (METL) development. METL development must maintain a tight battle focus to establish an attainable and trainable number of tasks. Use the Army standards published in MTPs, STPs, and SMs. The unit METL provides the framework for the planning of unit training.

SECTION V. STUDENT EVALUATION

Testing Requirements

NOTE: Describe how the student must demonstrate accomplishment of the TLO. Refer student to the Student Evaluation Plan.

You will receive a 40 question written examination that will include questions from this lesson. To receive a GO, you must correctly answer 28 questions.

Feedback Requirements

NOTE: Feedback is essential to effective learning. Schedule and provide feedback on the evaluation and any information to help answer students' questions about the test. Provide remedial training as needed.

You will participate in an After Action Review (AAR) immediately following the examination for this particular lesson.

VGT-1, MISSION ESSENTIAL TASK LIST

METL DEVELOPMENT FUNDAMENTALS

The following fundamentals apply to METL development

- **METL is derived from the organization's war plans and related tasks in external guidance.**
- **Mission essential tasks must apply to the entire organization. METL does not include tasks assigned solely to subordinate organizations.**
- **Each organization's METL must support and complement the METL of higher headquarters or the supported unit.**
- **Availability of resources does not affect METL development. METL is an unconstrained statement of tasks required to accomplish wartime missions.**

T653/ OCT 04/ VGT-2

METL DEVELOPMENT FUNDAMENTALS (continued)

- **Since METL is not prioritized, not all tasks require equal training time.**

MISSION ESSENTIAL TASK LIST

T653/ OCT 04/ VGT-1

METL DEVELOPMENT FUNDAMENTALS

The following fundamentals apply to METL development

- METL is derived from the organization's war plans and related tasks in external guidance.
- Mission essential tasks must apply to the entire organization. METL does not include tasks assigned solely to subordinate organizations.
- Each organization's METL must support and complement the METL of higher headquarters or the supported unit.
- Availability of resources does not affect METL development. METL is an unconstrained statement of tasks required to accomplish wartime missions.

T653/ OCT 04/ VGT-2

METL DEVELOPMENT FUNDAMENTALS (continued)

- Since METL is not prioritized, not all tasks require equal training time.
- Commanders direct operations and integrate the battlefield operating systems (BOS) through plans and orders. BOS are systematically used to ensure the interdependent organizational tasks are necessary to generate, sustain, and apply combat power directed toward accomplishing the overall mission.

T653/ OCT 04/ VGT-3

COMPANY METL DEVELOPMENT SEQUENCE

- Analyzes the company's assigned mission and identifies specified and implied tasks.
- Analyzes the operational environment and other external guidance to identify any other tasks.
- Reviews the battalion commander's mission and METL.
- Restates the company wartime operational mission.
- Uses the mission-to-collective task matrix found in the ARTEPMTP to identify the collective tasks that support the company's restated mission, and selects those collective tasks that are critical for wartime mission accomplishment.

T653/ OCT 04/ VGT-4

COMPANY METL DEVELOPMENT SEQUENCE (continued)

- Sequences the METL tasks that is expected to occur during the execution of the wartime operational mission.
- Back-briefs the battalion commander and obtains approval of the company METL. The battalion commander selects specific company METL tasks as battalion battle tasks.
- Provides the approved METL to the platoon leaders and other subordinate leaders.
